**Production Alert: Fred C. Nelles Youth Correctional Facility – Whittier  
Sale of property and impact on filming during escrow**

The State of California has recently entered into escrow for the sale of the popular State owned filming location the Fred C. Nelles Youth Correctional facility (Nelles). Negotiations between the State and the buyer are in progress. During the escrow period which will last for twelve to twenty-four months, filming will be allowed to continue.

All film production companies should be aware that **the sale of Nelles and related activities have priority over filming.** However, production companies will be notified in advance of any work or inspections that the buyer may need to schedule. With some flexibility by the productions, filming will continue until the close of escrow. Nelles film monitors Thom Aycock and Barry Dowling will coordinate production company and buyer's needs.
